

Your title, large and bold.

Your name (not bold).

All your text goes down here.¹.

Leaving a blank line starts a paragraph. Otherwise newlines are ignored. Plain text (not containing certain characters that have special meaning to TeX) appears more or less as it is typed, but lines are collected into paragraphs.

italics, **bold**, larger or smaller type.

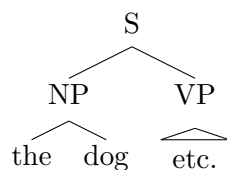

Subscripts_{*i*} and superscripts^{*i,j*}.

1 Linguistics-style examples

The commands in this section are defined by the packages *gb4e* and *qtree*.

(1) Example.
